*Yes*

we proudly source some of our own product range from China...

And yes, you can rely on its quality and high performance. We've been dealing with Chinese manufacturers for a great many years now and we understand how they work, who to choose and how to ensure you get the best quality at a fair price.

We travel to China on a frequent basis to check quality standards, to oversee design features and to maintain our solid working relationships. That all pays off in being able to deliver you the right tools at a very competitive price.

*Choose  
smart....*

Know us by  
our products,  
our brands and  
our quality...

You can rely on the names you know. At Tooline, we're proud to supply some of the leading brands in the sector, along with products that we've specifically sourced to fill the gaps in our product offering - putting our own brand on them. And, because those products carry our name, we're stringent about quality control and making sure they deliver on both value and reliable performance.

That all means when you choose our power tools, you're making a good decision.

REMEMBER that our products are all backed by local, New Zealand based after-sales support.
